

Job description

We're looking for a skilled operative to join our team of structural waterproofers and ground gas membrane installers.

This is a great opportunity to join a well-established and growing company and to learn some industry-specific skills.

We work all over the country, mainly in the northeast (Newcastle and surrounding areas), Birmingham, Leeds, and Sheffield. Working away is key part of this job role.

The Job Role:

The role involves installing structural waterproofing membranes and ground gas membranes to new build structures, including housing plots, retaining walls and much more. No specific industry experience is required as full training will be provided. However, labouring, groundwork or construction site work experience is required, and the candidate must hold a current CSCS card.

Punctuality and time management skills are essential, in addition to accurate and thorough record keeping.

For the right candidate, there are also progression opportunities for NVQ qualifications and industry specific qualifications.

It is physical work and involves a lot of traveling and overnight stays. The number of overnight stays vary, however being away up to 4 nights a week is possible. A bonus is paid for each night the operative is away in addition to food monies and hotel accommodation.

We pay travel time, and we don't expect you to share a room when you stay away.

A van is provided, and work is carried out in a team of two. Until fully trained, you will be paired with a lead operative who is fully qualified.

If the above opportunity is of interest, or you would like to find out more, we look forward to hearing from you

Role Requirements:

Current CSCS Card

Full Clean Driving Licence (up to 3 points is acceptable)

Groundwork, Labouring, or construction site work experience

Job Types: Full-time, Permanent

Salary: Negotiable depending on experience/qualifications

We are an equal opportunities employer.

COVID-19 considerations:

We have carried out multiple covid-19 risk assessments on the works the company undertakes and have implemented measures to conform with all current legal requirements and government guidelines.
